

30.09.2010

Dear Sirs,

RE: W.S CIVIL ENGINEERING:

We can, with no hesitation pass on our recommendation of the above company. Having utilised their expertise on several projects, we have only praise for the conduct of their staff, their technical knowledge, and delivery on time of first class work and above all their safety awareness.

Projects that W S Engineering helped our company to successfully deliver include:

Removal of portal signal gantries – EAST MIDLANDS SIGNALLING RENEWALS

Installation of new REBs – EAST MIDLANDS SIGNALLING RENEWALS

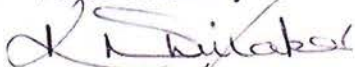

Installation of Signal Gantries and bases – SCARBOROUGH RESIGNALLING

Installation and refurb of refuelling plant, FERME PARK, NETWORK RAIL

Installation of new access at Kenton – NETWORK RAIL

These are just a few examples of work delivered to us, and, in each instance the projects have been signed off with no incidents reported.

Yours Sincerely

K WHITTAKER  
CONSTRUCTION MANAGER
